Mapoon Aboriginal Shire Council

Having an innovative organisational structure and design helps Council to create an environment where people can work effectively towards a clear vision. It also aims to improve communication, increase productivity, and inspire innovation.

Most productivity and performance issues can be attributed to poor organisational design. Poor organisational design often results in, among other things, confusion within roles, a lack of coordination among functions, and failure to share ideas.

Our organisation strongly supports indigenous advancement and the capacity building of our local residents, creating great leaders to - **strengthen our unique region.**
